### **REQUEST FOR REVIEW AND CANCELLATION OF TAX LIABILITY**

Dear Sir,

I write to formally bring to your attention my concern regarding the tax liability communicated to me by your office in respect of my business and to respectfully request a review of the assessment.

My name is **Ononaku Ikenna Joseph**, with **ASIN No. 17347930310**. I operate a **small computer business centre**, which is solely owned and operated by me. The business is a very small-scale enterprise and **does not have any staff or employees**. I observed that the letter sent to me captured my business name but the liability appears to still be treated as my **personal income tax obligation**. This raises concerns regarding the accuracy and completeness of the taxpayer information contained in the relevant records and, possibly, whether adequate data verification or reconciliation was carried out before the liability was raised.

I wish to state clearly that my **annual income from the business is below ₦800,000**. Based on the applicable tax provisions and the relevant income threshold, I understand that an individual whose annual income falls within the applicable tax-free threshold should not be subjected to income tax liability on such income.

Consequently, the tax liability communicated to me does not, in my view, accurately reflect my actual financial position, income level, or the nature and scale of my business. I therefore respectfully request that the assessment be **reviewed, corrected and, where found inconsistent with my actual taxable income, cancelled and treated as null and void**.

I respectfully advise that, before issuing or confirming a tax liability/Best of Judgement (BOJ) assessment, a proper background check and verification of the taxpayer's actual financial position should be undertaken. This will help ensure that assessments are based on accurate and verifiable information and prevent the imposition of liabilities that do not reflect the taxpayer's actual circumstances.

I am fully willing to cooperate with the tax authorities and provide my **financial statements and relevant financial records for the past three (3) years** to substantiate my claim and enable your office to make an informed and accurate determination of my actual tax position.

I therefore kindly request that your office:

1. **Review the tax liability raised against me;**
2. **Verify the taxpayer information and data upon which the assessment was based;**
3. **Take into consideration the actual nature and size of my business and my true annual income;**
4. **Review the application of the relevant tax-free income threshold to my circumstances; and**
5. **Cancel or withdraw the liability if, upon verification, it is established that no tax is payable.**

I remain willing to provide all necessary documents and financial records required to facilitate the review.

I trust that this matter will receive your kind and prompt attention, and that the assessment will be reviewed in the interest of fairness, accuracy and proper tax administration.

Thank you for your consideration.

Yours faithfully,

Ononaku Ikenna Joseph
